

CROSS THE FINISH LINE

WITH A VARIETY OF ECO-FRIENDLY DOOR AND PANEL OPTIONS FROM PENTCO

GREEN MATERIALS

GREEN MANUFACTURING

FULLWRAP

From eco-conscious laminate veneers (LV) to natural (NV) & engineered (EV) wood veneers, FullWrap doors & panels let you make a refined & creative design statement. All NV & EV doors can be custom stained & finished. For a high gloss, 3D effect, a poly-coating finish is available which can give your project a slick, upscale modern look.

SOFTOUCH

With a range of available colors, styles & profiles, Softouch doors & panels will allow you to be creative with endless possibilities. Add a bit of flair to a traditional frame with style & color, or design a completely unique, custom look. Softouch offers a range of gloss levels including high gloss polyurethane. All finishes have a wonderful, sensuous feel.

PHASE II

Phase II doors showcase the beauty & warmth of real wood. A variety of available wood species, together with a great range of styles & stain options, you can have a look that radiates natural luxury, from minimalist elegance to detail rich opulence. Stains top coated in waterborne finishes are also available to protect & enhance.
